Posted on : November 2, 2017 Jackie Jackson and son, Siggys Jackie Jackson is a music icon who, along with his infamous Jackson siblings, has always had a conversation about the city. This time, however, it is his son whom we want to shed light on. Sigmund Esco Jackson Jr. yes, which is also his pop real name is 41-year-old son Jackie. It also goes by names, Dealz and/or Siggys. Anywho, for those who are not really at all that the Jackson family does, Siggys and Jackie share a very close bond. Siggys was also very close with his uncle Michael, just as he is still with the kids MJ and the rest of his family. Speaking of MJ's children, two of them - Paris and the Prince - recently attended the wedding of Siggys and his beautiful wife in September 2017. Before we get into why people are surprised newlyweds, we want to send big congratulations to Siggys and his new bride, who now has a name similar to her new aunt-in-law, Toyia L. Jackson... Why many are surprised by Jackie's new sister-in-law now, here's the thing about Toyia that caught our attention, as it was and many others. People are very surprised to see that Siggys did what most of his Jackson family now don't, he married an African-American man. Yes, you read this right, Jackson is actually married and has children with a black woman. Normally it wouldn't be a big deal, but come on now, we all know it's a rarity in Jackson fam.' Although Jackie's ex-wife, Enid Jackson, was African-American, it was a long time ago, in the 1970s and 80s. But in recent years that has changed and now he is happily married to his Caucasian wife, Emily ... Of course, there is absolutely nothing wrong with interracial marriage in general, because love is love. However, the reason Toyia and Siggys have people look at them and say: Whaaaaaat?!! because Jackson FAM is huge, but we can probably only count on one side how many of them are actually being married to/dating people who look like them. Counterclockwise: Paris Jackson, Toyia L. Jackson, Siggys, Rebbie, Jackie, and Katherine Jackson on Siggys and Toyia's wedding day Meet your kids as she stands right now, Siggys is apparently only the second generation of Jackson, who is actually married to an/dating black man. Husband of 40-year-old daughter Rebbie, Stacey, of Hungarian descent, JJ's son and daughter were in serious relationships with Caucasian boyfriends.com. All three of Tito's sons are married to women of the same race. And the list can be said further, against Jackson's other descendants. Love is love Therefore, when we see Siggys and his fiancée, Toyia, the surprise is understandable in the context of the dynamics of their family. But then again, love is love, and whoever makes one happy is who they should be with... as long as their decision is based on pure love and not based on deep-rooted / social brainwashing that self-loathing. Congratulations again to the Jacksons. Sigmund Esco (born June 29, 1977) is the son of singers Jackie Jackson and Enid Adren Spann Spann. He has a younger sister, Brandi Jackson. Siggys mother died on December 20, 1997. His son Jared Esco Jackson was born in 2011. He has a younger twin brother named River and Jaylen (born December 31, 2014). Jackie is the second child of the Jackson family and Jackson's older brother. The early life of Sigmund Esco Jackson was born on the 21st birthday of his mother Katherine in 1951. Nicknamed Jackie by his grandfather, taken from Jackson Boy, he came from a black working family. He and his siblings grew up in a two-way home in Gary, Indiana, an industrial city outside Chicago. In 1964, Jackie's father, Joseph, formed the Jackson Brothers singing group, which included Jackie and his brothers Tito and Jermaine. The group consisted of younger brothers Marlon and Michael, who played various percussion instruments. By 1966, Joseph had made Michael a soloist, and within two years they had professionally appeared under the name Jackson Five, which was later changed to number 5 after signing with Motown in 1969. Before signing with Motown, Jackson wanted to pursue a career in professional baseball. Jackson's career was performed by a high tenor, singing voice. He added brief leading roles in some of Jackson 5's hit singles, including I Want You Back and ABC. In 1973, he released a solo album that failed to chart. After Jackson 5 became Jackson after leaving Motown for CBS Records in 1976, Jackson's role as a vocalist and increase. He added vocals with his brother Michael to their Top 10 epic single, Enjoy Yourself, and added the track to six of the band's albums with Epic. Jackson's voice changed to a lower tenor vocal style during the epic years. One of Jackson's most successful songs was co-star Michael's Can You Feel It, which became an international hit in 1981. Jackson began performing more vocals as Michael pursued a successful solo career. On their 1984 album, Victory, Jackie starred in the song Wait, while writing the single Torture. It is noteworthy that before the start of the Victory Tour in 1984 he received what was officially described as a knee injury sustained during rehearsals. However, Jermaine Jackson's former companion, Margaret Maldonado, wrote in her 1995 book Jackson Family Values that Jackson was injured in a car accident because his then-wife Enid Jackson drove him in his car after catching him along with choreographer and then-Laker girl Paula Abdul. Jackson recovered well enough to perform on the last stage of the show in December 1984 in Los Angeles, where Michael announced that he was leaving the band. In early 1985, Marlon Jackson joined Michael after leaving the band. Jackie, Tito and Randy became session musicians, vocalists and producers during this time. In 1987, Jackie, Randy, Tito and Jermaine reformed as the Jacksons and recorded Time Out for the Burglar, the theme for the film Burglar. The single was a minor hit for RBC in the US, but had more success in Belgium, where it peaked in the Top 40 in #17 two consecutive weeks. The Jacksons also contributed their backing vocals to the title track of Tramaine Hawkins' 1987 album Freedom. In late 1988, the Jacksons set out to record their latest album Epic, 2300 Jackson Street, which included Jackie and Jermaine, sharing most of the songs. 2300 Jackson Street failed the chart, successfully despite Randy and Jermaine led by Nothin' (This compares 2 U). Randy was not involved in promoting the album as he was working on his solo project, leaving Jackie, Tito and Jermaine to promote the album mostly abroad. After that, the band was excluded from the label, and each brother went on solo projects. Jackson signed with Polydor and released his first solo album in 16 years, Be the One, in late 1989. The album became a minor hit, #89 in the R.B.A. charts. The first single, Stay, was a Top 40 hit, while the second single 'Cruzin' was a moderate success. In 2001, after years in the spotlight, Jackie, along with her other brothers, returned to the mainstream in a reunion performance with Michael during his 30th anniversary special at Madison Square Garden. In recent years now living in Las Vegas, Jackson once ran two record companies, Jesco Records and Futurist Entertainment. his son, Sigmund Jr., known as DEAL, released a mixtape from Jesco in 2007. In 2009, Tito, Jermaine and Marlon starred in their short reality series, Jacksons: Family Dynasty. In 2012, the quartet began their first tour after the End of the Victory Tour in 1984. The four brothers continue touring, now planning to perform a series of shows at the Las Vegas casino circuit. Jackson's personal life has been married three times and has four children. He married his first wife, Enid Adren Spann Spann (June 27, 1954 - December 20, 1997), in November 1974 after a five-year courtship. It was a tumultuous marriage because of Jackson's infidelity and erratic behavior. They separated in 1984, and Enid filed for divorce, but they reconciled in 1985. In January 1986, Enid filed for divorce for the last time. She received a restraining order against Jackson after she accused him of physical assault. Enid died of a brain aneurysm in 1997. They had two children: Sigmund Esco Siggys Jackson Jr. (June 29, 1977), Siggys married Thie Parker on September 23, 2017, and has three children together: son Jared (born in 2011) and daughters Kai-Ari (born in 2014) and Skye (born in 2018). Brandi Jackson (February 6, 1982) was adopted. In the 1980s, Jackson became the subject of media coverage when he had an affair with pop star Paula Abdul. From 1989 to 1991, Jackson dated actress Lela Rochon. In 2001, Jackson married his second wife, Victoria Triggs. They later divorced. Jackson married his third wife, Emily Besselink, in 2012, who gave birth to twin boys: Jaylen Jackson (December 31, 2013). River Jackson (December 31, 2013).
